3 Read the following passage, then answer the questions:

Life without aim is useless, aimless, and pointless. It should be spent on a purpose, with a certain aim. Otherwise, there will be no difference between the life of man and that of animals. In ancient times, life was simple. Man had to hunt for food, nothing more. Now, life is different. We have new challenges to meet. We have new problems to solve. So, one should be ready for all these things. One can face life and its problems with a plan. Without a plan, life would be difficult to navigate. I want to become a teacher. The question is why so. There are many other professions. One can be a doctor, earning a lot of pounds daily. One can be an engineer, getting thousands of pounds as a salary. One can be a shopkeeper earning lots of profits. One can also be a trader, selling things and earning lots of profits. Why then a teacher? I want to become a teacher because I love this profession. Not only do I love it, but I also admire its greatness. I know teachers in our country are underpaid. I also know that people don't see this profession as a great one. They think that teachers are merely teachers, with no high status in life. I admit, teachers are not given proper status in our society. But, all the same, I like this profession. I think teaching is the highest job to do. It is because teachers bring the light of knowledge into the lives of people. They take them out of *ignorance*. They teach them good values. This is what I think and believe. In my opinion, a poor literate man is better than an illiterate rich man. So, that is why I want to be a teacher. This is my aim in life.
