

Technical Data Sheet

Fresh Intellivent 2.0

PRODUCT

PRODUCT DETAILS

Max Capacity	134m³/h
Sound pressure level 3m (silent mode)	21dB(A)
Power Consumption	2.1-5.5W
Material	ABS plastic
Protection rating	IP44
Voltage	100-240V
Frequency	50-60 Hz

INTELLIVENT 2.0

A unique, fully automatic, intelligent humidity controlled fan. The fan can adapt to each family's habits and learn to run only when it can make a difference. The sniff function means the fan is continually asking itself can it make a difference, controlled via an integrated microprocessor.

FEATURES & BENEFITS

- Two capacities for fully humidity control, silent or max
- Integrated safety omnipolar switch as standard
- Low voltage motor with operating time of 60,000hrs with a life span up to 5 times longer than most fans
- Extremely quiet at 21dB (A)
- Fitted with removable impeller for ease of cleaning
- Integrated adjustable speed control which controls the fan's capacity
- Integrated timer which can be activated via light switch, pull cord or a separate switch
- Airing function which runs for 60min if the fan is inactive for 26 hours
- LED indicators to let you know what the fan is doing
- Fan only consumes 5 watts of energy
- Different front cover colours available as extra
- Can be connected to air ducts of 98-100mm or 118-125mm using two adaptors supplied with fan
- 5 year guarantee
