Product Details

Round & Square	
Size	Round = 120mm diameter Square = 120x120mm
Ventilation free area	1384mm ²
Colour	Aluminium
Code	WV40CA11AD 4" round WV40CA21AD 4" square

9x6 Louvre vent	
Size	229 x 152mm
Ventilation free area	5330mm ²
Colour	Aluminium
Code	WV40CA96AD

9x9 Louvre vent	
Size	229 x 229mm
Ventilation free area	7700mm ²
Colour	Aluminium
Code	WV40CA99AD

Uses

- For use on new or refurbished walls
- Can be installed during render
- Used with cavity sleeve and internal vent

INSTALLATION

- Square and round vent has a 105mm diameter which can be inserted into pipe sleeve if required.
- Recommended to use silicone adhesive or similar to seal vent to pipe.
- 9x6 and 9x9 vents can be installed at the time of rendering and fit neatly flush with finished render.
- Internal grilles should be positioned over the internal opening of the cavity sleeve.
- Never block or restrict the flow of air through these ventilators
- Do not use hit & miss grilles internally when ventilating a gas or heat producing appliance
