

## Press release

Art space Nest presents AM.PM.AM. Three interdisciplinary weekenders where art, performance, music, and nightlife merge into one continuous experience.

19 – 21 September 2025

10 – 12 October 2025

28 – 30 November 2025

From Friday to Sunday, you can visit Nest from early morning until late at night. AM.PM.AM. will take place on 19 – 21 September, 10 – 12 October and 28 – 30 November.

### CLUBSCENE

The term weekender comes from the club scene and refers to events that fill the weekend with collective experience and a release from linear time. AM.PM.AM. is a continuous experience with fluid forms of interaction between art and audience. For each edition, Nest collaborates with an artist or collective, featuring contributions from interdisciplinary creators: from DJs and performers to visual artists and collectives.

### TUTTO QUESTO SENTIRE

The first edition centers on Tutto Questo Sentire. Since 2014, this creative collective has explored the connection between different art forms. They bring together artists from music, visual art, and performance, with a focus on sound and how it relates to video, time, environment, and live performances. The full programme of this first edition will be announced August 14th.

### PROGRAMME

Nest transforms with each weekender. Boundaries between disciplines blur again and again, shaped by the vision of the guest curator—from musical stage to audiovisual installation, with rehearsals, installations, and interactive moments alternating throughout. As a visitor, you're invited to move freely through the spaces, jumping from exhibition space to club environment. The creative process takes center stage and unfolds within a constantly changing scenography. During the weekenders, you can expect a wide-ranging program: from performances, listening sessions, and installations to DJ sets, concerts, open rehearsals, film screenings, workshops, and conversations with the artists.

Ticket sales start on August 14th. There will be both day and weekend tickets available.
