€ 594

Total costs:

€ 2.822

Monthly costs:

€ 62

Savings:

€ 1.058

All bike types freely selectable from over 350 brands.

It's that easy:

1. Registration

You register digitally and free of charge for your company bike leasing: <https://www.lease-a-bike.de/en/register>

2. Credit check

This is followed by a credit check. If the check is successful, you will receive access to our online portal so that you can manage your company bike leasing digitally as an employer.

3. Portal implementation

Define the company guidelines. How high can the purchase price of the bike be? How many bikes can an employee lease? You will receive an individual registration link, which you then share with your employees.

4. Let's go!

Your employees can now register digitally. You check each of your employees' registrations and approve them. With just one click! Your employees will then automatically receive an individual order code for ordering a company bike from a local specialist bike shop. Everything else is done automatically via the digital portal.
